— PROFILE

Software engineer with 1.5+ years of production experience building web and mobile applications end to end — Flutter apps backed by Firebase, React admin panels, and Laravel/WordPress platforms — with hands-on AI integration work (Gemini and other LLM APIs) in real product workflows. Comfortable owning features from requirements through deployment, debugging live systems, and communicating directly with stakeholders.

— EXPERIENCE

Associate Software Engineer — Vibe6 Digital LLP

Jan 2025 – Present

- Built cross-platform mobile applications with **Flutter & Dart** on **Firebase** — authentication, Firestore real-time data, Cloud Functions, and push notifications.
- Developed **React admin panels** (TailwindCSS, role-based access, live dashboards) and **Laravel/WordPress** web platforms, including e-commerce with payment integration.
- Integrated **AI/LLM APIs (Gemini)** into product features and internal automation workflows.
- Built data-automation pipelines: web scraping and multilingual data processing in **Python**.
- Handled deployments (Firebase, Netlify, VPS), production debugging, and Play Store release preparation; managed work with Git and Agile sprints.

— SELECTED PROJECTS

My Ocean Basket — E-commerce Platform

FLUTTER FIREBASE REACT RAZORPAY

Customer shopping app with real-time inventory and order tracking, plus a React admin panel for catalogue, orders, and delivery workflows.

Guidance Guru — AI Career-Guidance Platform

FLUTTER FIREBASE GEMINI API

Multi-role platform (students, parents, counsellors) with AI-assisted career recommendations, real-time chat, and counsellor scheduling.

BioMax Attendance — Biometric HRMS

FIREBASE IOT REACT CLOUD FUNCTIONS

Biometric device integration synced to a cloud pipeline: attendance capture, payroll-ready reporting, and a live admin dashboard.

Bharat Lakshya — Government-Scheme Data Platform

PYTHON SCRAPING MULTILINGUAL

Automated collection and multilingual processing of government scheme data into a structured, searchable dataset.

Gold Prediction / Confluence — Market Analysis

PYTHON ML MARKET DATA

Price-prediction and confluence-signal system built on live market data feeds and order-flow analysis.

— TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Dart, PHP, Python, Java, SQL
Mobile	Flutter, Android
Frontend	React, TailwindCSS, HTML5, CSS3, Bootstrap
Backend & Cloud	Laravel, Node.js, REST APIs, Firebase (Auth, Firestore, Cloud Functions, FCM)
AI & Automation	Gemini API, LLM integrations, AI-assisted workflows, web scraping
Databases	MySQL, Firestore
CMS & Tools	WordPress, WooCommerce, Git/GitHub, VS Code, Android Studio, Jira

— EDUCATION & CERTIFICATION

BE, Information Technology — Anuradha Engineering College, Chikhli (SGBAU, Amravati)

2023 · 65%

Software Testing Certification — Cyber Success, Pune
